SUBJECT: Weekly Activities Report No. 20
13 - 19 May 1960

I. SIGNIFICANT ITEMS

None to report.

II. OTHER ACTIVITIES

1. We have accepted a crash request from [] desk for a one-week tutorial, 23-27 May. [] shop was apparently too involved at the time so the case officer came to us in some desperation looking for a way to take up his man's time. The whole operation appears to be a crash affair - an unexpected recruitment - no project - no funds allotted - and no place to conduct the training program except in the man's hotel room, with his wife present. I was somewhat suspicious that we were simply being used as hand-holders until the desk was able to prepare its plans for properly using the trainee, but apparently my suspicions were ill-founded and the plan would have included this week on Communism regardless of time sequence.

2. Since the invitation to speak to [] group in New York never materialized I missed that opportunity to visit [] office for the discussions which I had proposed. However, we have a New York tutorial coming up the week of June 6 in which I will participate, and I expect at that time to be able to review the materials on hand in New York and perhaps offer some recommendations for bringing them completely up to date.

3. [] assistants in ICG, is transferring to the [] as soon as he can find a replacement for himself. He lectured to the ACO a few weeks ago and at that time I had discussed with him the possibility of an SIC/ICG rotation involving him. However, his only interest was in getting back to an operational job and we dropped the matter. Now the idea has occurred to him that someone from here would be an excellent replacement, and he has sounded me out on this possibility. While his job would be an interesting and useful one for someone from SIC to take over, no replacement is suggested. This is offered simply as a one way move. I pressed him on this point, but apparently Lothar has no one of [] capabilities whom he can release at this time, and with [] leaving in September we're certainly in the same position.
